OBJECTIVE

football player

EDUCATION

Master of Industrial and Management Systems Engineering, WASEDA UNIVERSITY

April 2025 – Expected March 2027

Bachelor of Industrial and Management Systems Engineering, WASEDA UNIVERSITY April 2021 – March 2025

RESEARCH

Rescheduling Method for Job Shop Problem Considering Degree of Job Sequence Change

Propose a method for dynamic rescheduling using a genetic algorithm to handle disturbances such as machine breakdowns in manufacturing. A genetic algorithm is a heuristic method that evolves candidate solutions through natural selection to find an optimal solution.

CERTIFICATIONS

Fundamental Information Technology Engineer Examination 2025

TOEIC Score: 905 2024

Japanese Driver's License (Class 1) 2021

TECHNOLOGY STACK

Languages: Python, TypeScript, JavaScript, SQL, GAS, C++, Smalltalk

Web Development: React, Node.js, HTML, CSS, Bubble

Cloud & DevOps: Docker, Github, AWS(Amplify, ECR, ECS, Lambda, S3, DynamoDB, API Gateway, WAF, Cognito)

Tools: Notion, Figma, Draw.io, Dify, Microsoft Office 365
